BETTER DRIVERS, SAFER FLEETS, BIGGER RETURNS...
SIMPLY BY REDUCING SPEEDING RISK

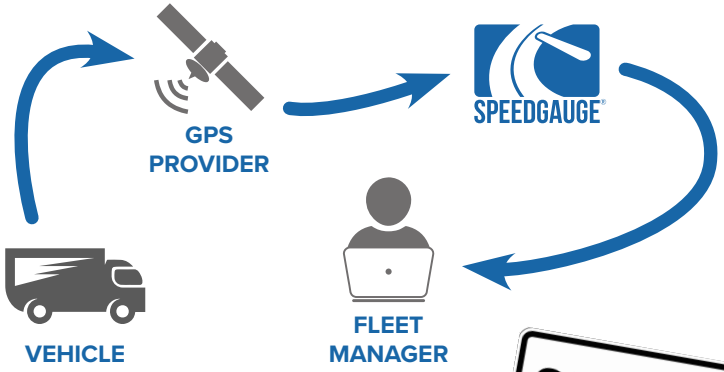
Posted speed limit insights reinforce safe driving and produce tangible benefits across your organization.

- Coach, retain and incentivize drivers
- Increase revenue and improve efficiency
- Lower operational, insurance and legal costs
- Reduce mechanical wear and tear
- Protect your brand and reputation
- Improve your CSA safety score
- Meet customer contractor compliance requirements

A highly valued, affordable software solution used by thousands of fleets in the US and Canada.

No hardware needed. No installation required. Use data <u>already</u> collected.

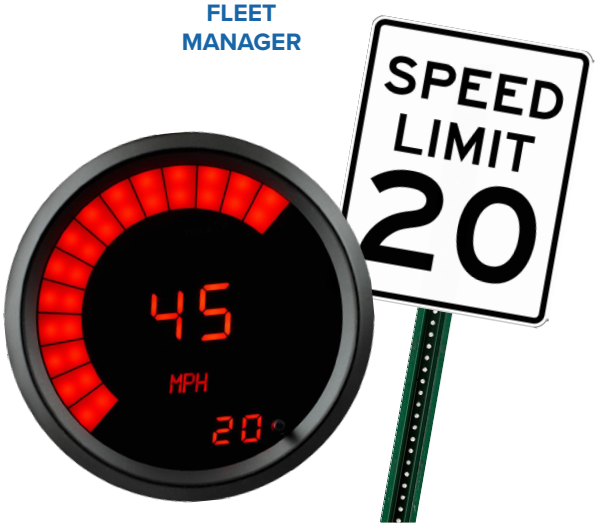
- Sold as a value-added service
- Subscribing to SpeedGauge is easy
- Account setup is fast, simple and handled for you



More than a basic over-the-limit alert:

- Specific detail on actual speed vs. posted speed limit
- Available on all road types
- Understand and improve speeding behavior

The essential driver coaching and performance improvement solution reduces speeding and driving risk...saving money, saving lives.



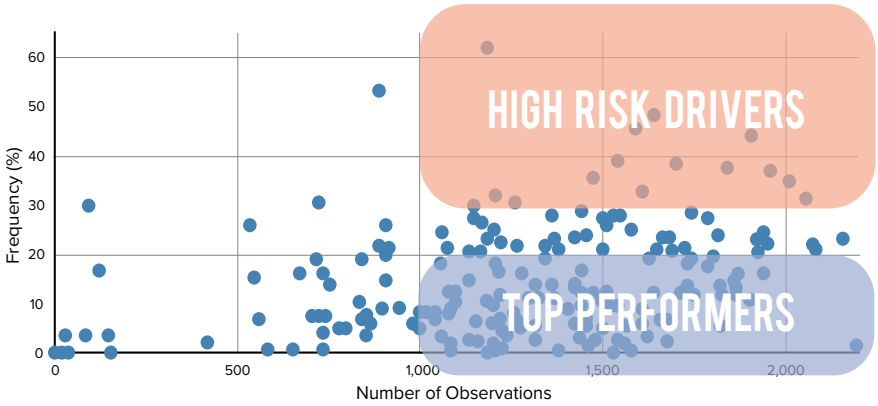
WITH SAFETY TRAINING & COACHING, CONSULTATION & TREND ANALYSIS TO IMPROVE FLEET SPEEDING BEHAVIOR

SpeedGauge shows fleet managers where to focus coaching efforts.

Easily identify:

- Your top performers
- Risky behavior
- Custom limits and geofence zone infractions
- And more...

Reports, charts, alerts and maps give you access to all the information you need to control speeding in your fleet. **Data that informs, not overwhelms.**



Watch your fleet's speeding trends improve over time!

The SpeedGauge Safety Center has an immediate, positive impact. New users typically reduce speeding by 50% within the first 30 to 60 days.

"We are very impressed with the data SpeedGauge can capture; everything I was hoping for and more. Every single carrier should spend time with the SG Professional Services team! They provided excellent tips and advice as we improve our safety operations."

Carol A. Millam, Safety Director
Amhof Trucking, Inc.
